Re: City Administrator Report for the Week of June 5th Regular City Council Meeting
Date: June 5, 2017

Below is a brief update on projects and future agenda items for the City.

False Alarm & Address Ordinances: These ordinances were planned to be presented at tonight's meeting for review and comment but were deferred due to an anticipated heavy agenda. The draft ordinances afford residential and commercial alarm customers a simplified three strikes per year before fines are assessed. Staff will also present a draft ordinance for discussion on requiring homes and businesses to have address numbering clearly visible from the street.

2016 Audit: The auditor Randy Ford will present the 2016 audit to the Governing Body at the June 19th regular meeting.

2017 YTD Water Loss: During the previous meeting's City Administrator's report I reported that the City's monthly water reports currently reflect an item of concern regarding water loss. May posted a 9% water loss. Staff is working to identify possible water leaks as the water loss equates to hundreds of thousands of gallons of water. Staff will present additional information on this issue in July.

Active Code Enforcement Cases: The City currently has six active cases, down from two dozen (24) code cases last week with violations ranging from high grass and weeds to junk vehicles.

Ordinances Related to Fireworks: Staff will present an ordinance related to tent set up and regulation at the June 5th meeting. This will establish when tents can be set up and when they must be removed by as well as including restrictions on the number of tents a non-profit can operate, and signage requirements displaying the hours fireworks can be lawfully discharged.

183rd Street Pathway: This item was deferred but will be presented at the June 15th regular meeting. This item is included in the 2017 CIP.

Neighbors United: Please see the attached "Thank You" from the Neighbors United.

Respectfully Submitted,

Brian W. Silcott,
City Administrator
